Policy Document on Environment and Energy Usage

Policy Objectives:

To sensitize students towards a Clean, Green, and Sustainable Environment.

To optimize the use of water and energy

- **To use LED/CF L bulbs and other energy-saving devices on the campus.**
- **Proper handling of solid waste from the campus.**
- **Encourage the use of public transport and car-pooling for minimizing fuel consumption. Smoke-free and tobacco-free campus.**
- **To restrict single-use plastics.**
- **To adopt methods for water recycling and rainwater harvesting**

• **Policy:**

To provide a clean and green environment in and around the campus, it has been decided to take sustainable initiatives for environmental protection and efficient energy usage. Despite the relatively small campus, majority of the open areas to be covered with natural greenery. The college has to adopt means for energy saving, proper management of waste, and underground water recharging with rainwater.

Policy Implementation:

To achieve the objectives, the college has already implemented its environmental policy in the following areas:

Energy Saving:

The staff members and students lead initiatives to save significant electricity and have developed a policy for reducing electricity consumption by using LED and replacing the old tube lights with LEDs.

The students commuting from far-off places use the public transport system as the bus pass facility at subsidized rates is extended to them by the college which is provided by state Govt. Many of the staff members use car-pooling and/or two wheelers. All the computer monitors have been replaced with LED/LCDs displays. Replacement of old appliances like lights, fans with energy-efficient appliances is underway. The process of the paperless office and use of documents for routine work has been started.

Smoke-Free and Tobacco-Free Campus:

Authorities have taken suitable steps for a Smoke-free and Tobacco-free campus. The relevant placards are displayed to highlight the need for a clean, green, and sustainable environment.

Say No to Plastics:

Minimum or no use of plastics is practiced by students, staff, faculty, and visitors on the campus. To inform all the students as well as faculty of different department about no use of plastic in the college, awareness board is displayed at front location of college campus. The waste collection bins are kept in appropriate places and managed accordingly.

No vehicle day:

Every Saturday of each month is declared as "No Vehicle Day" by college authority to minimize the use of personal vehicles within the college campus. To motivate the students regarding the minimize the use of vehicle.

Solid and Liquid Waste Management:

Smt.N.N.C. college has taken several initiatives under Solid Waste Management and Water Conservation. A separate area has been set up on the campus for the segregation of solid waste like plastic bottles, wrappers, cardboard, broken glasses, e-waste etc. These wastes

are kept in colored bins as per standard guidelines. A government authorized Rag picker usually collects this waste once in a week. The College has constructed compost pits for making compost from the garden waste such as leaves and grass clippings. Initially, four pits have been constructed; To reduce the misuse of used waste sharps it is properly chemically sterilized and broken before disposal

This initiative was taken in view of the National mission on Clean and Green Environment followed by Swatch Bharat Abhiyan, Plastic ban, Dry and Wet waste garbage separation, Rain water harvesting & water use, E-waste and so on so forth. As an Institute we take steps in whatever small way we can to support the global cause by initiating few but concrete steps towards the goals

Solid waste management:

The generated Solid waste is daily dispatched to the solid waste collection vehicle of Grampanchayat. With regard to green waste generated on campus, which includes grass clippings, leaf litter, and other landscaping related refuse is being treated for composts. The created compost used as a bio fertilizer.

Liquid waste management:

The college has designed the outflow of the liquid waste in such a way as to prevent contamination in the campus. A properly constructed leakage proof sewer system is used for drainage.

E-waste management:

All electronic gadgets are periodically repaired for efficient utilization and replaced under the buy back scheme of the supplier. Hence, minimum e-waste is generated in the campus. The remaining non-working computers, monitors and printers are discarded and scrapped on a systematic basis. If some parts are useful, in other systems they are kept aside for future use. The college has made E-agreement with Manas Computer Dhule (Private agency) All the e-waste produced in the college sent to recycling facility.

Hazardous Chemical Waste management:

Waste of biological origin is converted into manure through composting and it being used in place of chemical fertilizers in the Botanical garden. It keeps the environment clean and healthy. In the backyard of the Chemistry laboratory, there is a small plant conservatory where plants have been grown specially to absorb air pollutants and various obnoxious gases emitted during experimentation. The plants grown for this purpose.

Water Recharging:

The College has constructed rain-water recharging system. Whole of the campus rain water is fed to the underground water table that leads to optimum use of rain water. This leads to maintenance of water table in and around the campus. In coming years the college will adopt measures for recycling of water and other waste-products recycling.

Subject: Ban on single use plastic items in the college campus...

As you are aware that India was the global host for World Environment Day (WED) 2018, that was celebrated on 5th June 2018. The theme of WED-2018 was "Beat Plastic Pollution. The aim of the government of India is to make all offices single use plastic free premises. In this backdrop the college has decided to ban the single used plastic items in the campus. All the staff members and students are hereby instructed not to use single use plastic in the college premises. The administration expects positive response from all the stakeholders. If anyone found violating this order, disciplinary action will be taken for the same.

Re: Guidelines issued by the UGC to ban single-use plastics on the campus

Sub: Ban on single use plastic on college campus

The plastic waste has emerged as one of the biggest environmental concerns adversely impacting the soil, water, health and well-being of citizens at large. The limited waste disposal systems have become a challenge to dispose of plastic waste materials. Especially the single use plastic To reduce the usage of plastic, the University Grants Commission has issued special guidelines to all the higher education institutions to impose ban on single-use plastics on the campus. Accordingly, it is hereby circulated for information of all faculty member, non teaching staff and students authority of has decided to take following steps to put ban on single use plastic materials on the campus:

1. To ban use of single-use plastics in, campus premises, , etc
2. To strive to make the campus plastic-free by systematically banning use of plastics and replacing the same with suitable environmental friendly substitutes
3. To mandate all students/ staff members to avoid bringing non-bio-degradable plastic items on the campus.
4. To avoid the use of plastic water bottles, bags and encourage use of alternative solutions like cloth bags, paper bags etc
5. To keep signboards at various places to give wide publicity to ban on use of plastic polythene on the campus
